

WHAT TO DO DURING BLASTING TIME

HOME SAFETY GUIDE: English

Before the blast

1

Check the official alert

Note the blast time and watch-out for updates in the app

2

Bring everyone indoors

Help children, older people and pets first.

3

Keep the phone nearby

Listen for new instructions or contact emergency contacts if needed

4

Close windows and doors

Close doors and windows before the blast

During the blast

1

Stay indoors in safe areas

Remain indoors unless officials told you to evacuate.

2

Keep away from glass

Sit away from windows and loose objects.

3

Stay calm

Keep children close. Do not go outside to watch.

During the blast

1

Drop to your hands and knees

This stops you from being knocked over

2

Go under a table or desk

Crawl under a table, desk or anything similar furniture

3

Cover yourself

Cover your head and neck with your arms like the people in the picture

After the all-clear

1

Wait for the all-clear

Do not leave the safer area too early.

2

Check people first

Then inspect the home from a safe place.

3

Record and report

Photograph new damages and report it on the app

If something is wrong

1

Injury or immediate danger

Call emergency services through the app

2

Dust enters the home

Stay in the cleanest room and keep openings closed.

3

New structural damage

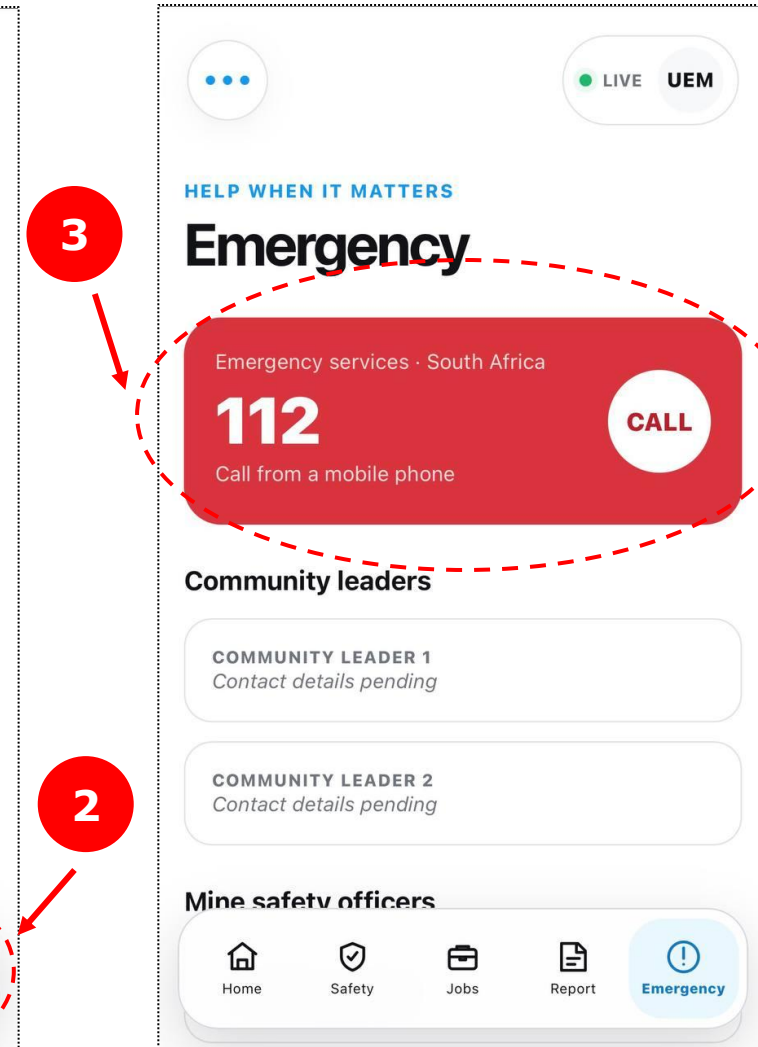

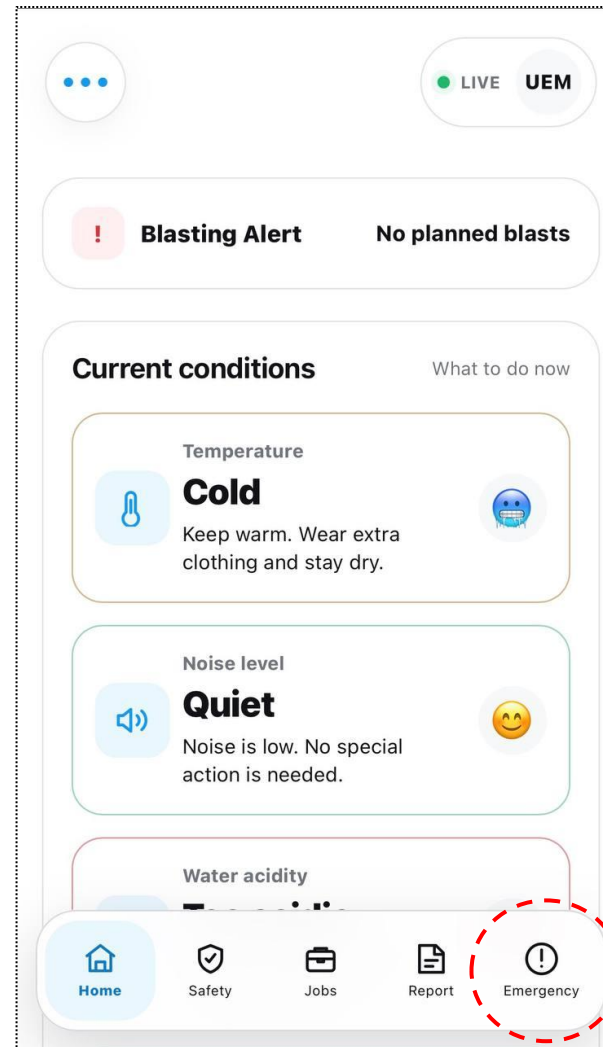

Move away from the area and report it promptly.

In-App Emergency Contacts

- 1 Get into the app
- 2 Click the emergency button at the bottom of the app
- 3 Select and call the desired emergency contact

Follow The Mine or Municipality's Official Instructions First
